## DETAILED FINAL ACTION

### *Response to Arguments*

1. Applicant's arguments, filed 10/614/860, with respect to claims 1-14 have been fully considered and are persuasive. The rejection of claims 1-14 has been withdrawn.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-14 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of application #s: 10/614859, 10/614861, 10/614862, 10/614863, 10/614864. Although the conflicting claims are not identical, they are not patentably distinct from each other because applicant recites limitations that are based on the general premise of the instant application that each functional unit requires a minimum number of paths required to connect to associated functional units, e.g., the number of paths is equivalent to the number of associated functional units needed to be connected to.

***Information Disclosure Statement***

3. The information disclosure statement filed 07/09/2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

U.S. Patent Documents have been considered, but Foreign Patent Documents and Other Documents have not.

***Allowable Subject Matter***

4. Claims 1-14 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, a storage system that comprises a plurality of channel units communicatively coupled to an upper-level system, a cache unit communicatively coupled to the plurality of channel units, a control unit communicatively coupled to the cache unit, a disk device communicatively coupled to the control unit, wherein the number of paths linking said channel unit to said cache unit equals the number of plurality of channel units, i.e., there is no multiplexing between the channel units to store data on the cache unit, but instead each channel unit has a dedicated path to the cache unit and the necessary logic in the cache unit in order enable these independent paths to store data on the cache.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
